

Jinwoo Chung

✉ imaboybut@kookmin.ac.kr

RESEARCH INTERESTS

Machine Learning, Computer Vision, Efficient and Trustworthy AI, Quantization (PTQ/QAT), Deployment (ONNX/TensorRT).

EDUCATION

Kookmin University, Korea

Aug. 2025 – Feb. 2027 (expected)

M.S. in *Computer Engineering*

- Adviser: Prof. Jangho Kim

Kookmin University, Korea

Mar. 2022 – Aug. 2025

B.S. in *Artificial Intelligence* (GPA: 4.0/4.5)

PUBLICATIONS

<International Conferences>

1. **Jinwoo Chung**, Sungyeop Jung, Weronika Czorapinska, Jangho Kim, “Quantized Model Soup Shake-Up: Weight Perturbation for Enhanced Ensemble Diversity”, ACM SIGKDD Conference on Knowledge Discovery and Data Mining (**KDD** 2026)
2. HyeonJun Lee*, Hyeonsik Jo*, **Jinwoo Chung**, Jangho Kim, “SQuaT: Self-Supervised Knowledge Distillation via Student-Aware Quantized Teacher Features”, The 29th International Conference on Artificial Intelligence and Statistics (**AISTATS** 2026)

<Under Review>

1. “Hardware-Friendly Token-Group Activation Quantization for Low-Bit Mamba Super-Resolution” **Jinwoo Chung**, Jangho Kim. (*NeurIPS 2026 Under review.*)
2. “Gradient Interaction Sensitivity for Structured Pruning of Large Language Models” Sangho An*, **Jinwoo Chung***, Jangho Kim. (*NeurIPS 2026 Under review.*)
3. “Temporal-Aware Quantization via Sequence-Wise Quantizer Bounds Ensembling for Real-World Video Super-Resolution.” **Jinwoo Chung**, Sangho An, Sungyeop Jung, Jangho Kim. (*ECCV 2026 Under review.*)
4. “Quantized Audio Spectrogram Transformer Soup: Robustness and Deployment Efficiency.” **Jinwoo Chung**, Songha Lee, Jangho Kim. (*InterSpeech 2026 Under review.*)
5. “SR-BEVS: Sparse Recovery Bird’s-Eye View Model Soup for Robust Camera-Based 3D Object Detection.” **Jinwoo Chung**, Sangho An, Hyunsung Park, Jangho Kim. (*IROS 2026 Under review.*)

PROJECTS

On-Device AI Quantization Algorithm Development

Jan. 2025 – Dec. 2025

Industry-Academia Project (LG Electronics)

- Developed quantization algorithms for on-device AI deployment.

- Submitted a research paper proposing three quantization methods.
